

Town of Riverview

COUNCIL REPORT FORM

Presented to: Mayor and Council

Department: Corporate Services

Date: September 26, 2022

Subject: Statements of Public Interest – Briefing from K. Brewer

BACKGROUND

Currently, all local governments in New Brunswick are required to have land use plans, while land use plans for local service districts are optional. Under Local Government Reform, the *Community Planning Act* will be amended to require that all local governments and rural districts have land use plans in place by 2027.

The Province has created Statements of Public Interest that will be included in a Regulation under the Community Planning Act. These SPIs will serve to align provincial, regional and local land use planning across New Brunswick.

Attached is a briefing from our Planner, Kirk Brewer which explains in more detail the direction Government is taking with the creation of the SPIs.

The briefing note is for Council's awareness of the SPIs only and there is no decision or action required by Council at this time.

Prepared by: Annette Crummey, Director/Town Clerk
