Section 3: Subdivisions/Development

Updated by Paul Richard

Priority	Status
Nothing to report for this Month	

Section 4: Other Notable Development & Highlights for Council's Attention:

Updated by Michel Ouellet

On February 6, the Director presented during the second annual Employee Town Hall Sessions. During the sessions, the senior management presented their 2018 strategic & operational plans and important developments in each department as they relate to the Town's Strategic Plan. Similar to last year, this session provided an overview of the Department's accomplishments in 2017 and what are the key priorities and plans for 2018.

On February 13, the Director presented at an open house meeting for residents impacted by the local improvement projects in 2018. Residents from Bloor, Balmoral, Byron, Easley, and Leonard attended and asked many questions. All appeared to be in favor of the projects. Questions were split between financial in nature and construction related.

On February 16, the Director along with the Municipal Engineers attended the Association of Professional Engineers Association Annual Conference and Meeting. Among the sessions, the causeway bridge project was presented by the DTI and questions were then directed to the Director of Riverview with regards to traffic concerns during the causeway full closure expressed by residents of Riverview in attendance. This allowed an opportunity to quickly present the upcoming Gunningsville Intersection Reconfiguration project to this audience.
