Re: Contract 18-70 – Gunningsville Intersection Improvement

I agree with the attached recommendation from WSP to award the construction to Dexter Construction Ltd. for \$1,694,384.90 (plus HST).

The 2018 Budget for this work is \$1,600,000. Based on a construction cost of \$1,767,074.01 (including 4.29% HST), the cost for geotechnical and materials testing plus engineering fees of \$160,000 (incl. 4.29% HST), and the previously awarded signal poles and arms of \$48,549.08 (incl. 4.29% HST), the project will cost \$1,975,623 which is approximately \$375,623 over budget.

I recommend the revised tender be awarded to the acceptable bid submitted by Dexter Construction Ltd. for \$1,767,074.01 (including 4.29% HST) (as per Council Report Form dated May 4, 2018).

Michel Ouellet, P.Eng.

Director of Engineering & Public Works

I agree with the above-mentioned recommendation.

Colin Smith, CAO
