---

### **BACKGROUND**

Town Management has committed to providing Council and the public regular updates on the status of the Town's Strategic Plan. Council received previous updates in 2015 and 2016 on the previous version of its Strategic Plan. The current Strategic Plan – 2016 to 2020 was reviewed and approved by Council at the end of 2016. This will be the first update that Council has received on the Town's implementation of the Strategic Plan and the various departmental operational plans in place to support it.

The attached document provides a high level overview of a number of the corporate and departmental initiatives that have been actively worked on during the first half of 2017. The document only represents a sample of what has occurred so far this year, each department had completed an operational plan update as of the end of June.

In 2017, Town Staff has done a very good job executing on the Strategic Plan that was endorsed by Council, and deserve to be commended. The area that management will need to continue to dedicate more time to move the plan forward is to create more opportunities for internal and external collaboration to achieve the larger goals and objectives of the Town's Strategic Plan.

Council will continue to receive updates on the Town's progression in implementing the Strategic Plan and to make any necessary modifications to the plan as priorities evolve over time.
